

Please do not allow LPFM stations to take priority over the signal of pre-existing stations like K-LOVE, which broadcasts at 95.9 and 91.9 FM in my area. K-LOVE serves my interests by broadcasting contemporary Christian music and news from a Christian perspective. It has also been personally helpful to me by making me aware of international adoption resources. K-LOVE serves a public interest by being one of the few consistently family-friendly stations in this area. The effect on the local community would be detrimental if K-LOVE were taken off the air. As a community leader by virtue of my position as pastor, I am concerned that any LPFM that might replace K-LOVE would not have the same family-friendly format as K-LOVE consistently does. Also, K-LOVE is the only station in this area that provides contemporary Christian music, and many in the community would miss it if it were gone. Thank you.
